EXPERIENCE

Macmillan Learning, NYC — *Sr. Project Manager*

FEB 2018 - PRESENT

As the senior project manager, I manage multiple products and work with the design and engineering teams to implement accessibility. Working with stakeholders, I create creative streamlined workflows between departments and around company pain points. I also manage company standards documentations for our online publishing and accessibility processes.

Book Industry Study Group, NYC — *Operations Manager*

OCT 2015 - FEB 2018

As the operations manager, I oversaw all committee work on the update and creations of book industry standards around metadata, rights, and accessibility. I oversaw the publication of these documents and used my front-end development knowledge to create our website and maintain our membership database.

EDUCATION

Columbia University, NYC — *Full Stack Coding Course*

APR 2019 - SEP 2019

Six-month bootcamp. Furthered my knowledge of HTML, CSS, Javascript, Node.js, & SQL. Learned jQuery & MERN stack..

McGill University, Montreal — *Masters of Information Studies*

AUG 2014 - AUG 2015

Attended McGill for a Masters of Information Studies. Learned Javascript skills, information management, SQL, and metadata skills.

University of Kansas, Kansas — *B.A. Political Science*

AUG 2009 - JUL 2011

Graduated early with honors and a double major (including International Studies).
